EDUCATION

B.Tech in Computer Science and Engineering (Internet of Things):

Shiv Nadar University, Chennai

CGPA: 9.156 (Semester I to VI)

Aug 2023 - Aug 2027

TECHNICAL SKILLS

Languages: Python, Java, C, C++, Dart, JavaScript

Web: HTML5, CSS3, JavaScript, Node.js

Tools: Git, GitHub, VS Code, JWT, bcrypt

Frameworks: Django, Flutter, React, Express.js, Pygame

Databases: PostgreSQL, SQLite, MySQL, Firebase Firestore

Others: Arduino, Raspberry Pi, ESP32, Leaflet.js, OpenStreetMap

PROJECTS

SafePaws – Campus Dog Safety App:

Flutter, Firebase, Firestore, FlutterMap

December 2025 - January 2026

- Built a **crowd-sourced campus safety app** for stray dog sightings with real-time danger alerts and feeding coordination
- Implemented **Firestore streams** for live data sync, auto-expiring reports (4 hrs), and confidence scoring
- Submitted to **GDG OpenBuild – GDGoC SNUC 2025 Hackathon**; shortlisted in Round 1
- Live: pawsafe-becdf.web.app | Demo Video | Repository: github.com/Glueymetal/SafePaws

IoT Heart Rate Monitoring System (Photoplethysmography):

ESP32, C++, Python, Real-time Visualization

November 2025

- Built a **light-based pulse sensing system** using PPG technique — the same principle used in hospital monitors and smartwatches
- ESP32 reads analog light absorption values from finger capillaries, detects pulse peaks, and streams data to laptop via USB
- Visualised output as a **real-time moving waveform** on a laptop via USB serial communication
- Repository: github.com/Glueymetal/pulseview

Travel Bucket List:

React, Node.js, PostgreSQL, Express.js, Leaflet.js

November 2025

- Built a **full-stack travel planning app** with interactive map visualization for managing travel destinations
- Implemented **JWT authentication** with bcrypt hashing, RESTful API, and normalized PostgreSQL schema
- Integrated OpenStreetMap with Nominatim API for location search and geocoding via React Leaflet
- Repository: github.com/Glueymetal/travel-bucket-list

Space Shooter Game:

Pygame, Python, OOP

January 2025

- Developed a **2D arcade-style** space shooter with enemy AI using object-oriented design
- Repository: github.com/Glueymetal/Spaceship_Game

Restaurant Management System:

SQLite, Database Design

December 2024

- Database-driven system with table availability, reservations, order management, and sales tracking
- Repository: github.com/Glueymetal/Restaurant_Management_System

CERTIFICATIONS AND WORKSHOPS

CS50's Introduction to Programming with Python: Harvard University (edX), 2024

CS50's Introduction to Databases with SQL: Harvard University (edX), 2024

Programming in Modern C++: NPTEL (IIT Kharagpur), 2025

Introduction to Cybersecurity: Cisco Networking Academy, 2025

Privacy and Security in Online Social Media: NPTEL (IIIT Hyderabad), Jul–Oct 2025 – **Top 5% Topper**; Score: 82/100

HTML5 - The Language: Infosys Springboard, 2025

TCS iON Career Edge - Young Professional: Tata Consultancy Services, 2023

Spanish A1 Level: Completed and certified.

Workshops: TinyML & Raspberry Pi (Embedded ML and Systems)

ACHIEVEMENTS AND HONORS

GATE 2025 Qualified: Qualified the Graduate Aptitude Test in Engineering (GATE) 2025, demonstrating strong proficiency in core computer science fundamentals.

First Rank - Semester III: Achieved first rank in the third semester at Shiv Nadar University, Chennai, among peers in the B.Tech CSE (IoT) program.

GDG OpenBuild – GDGoC SNUC 2025 Hackathon: Shortlisted in Round 1 for **SafePaws**, a crowd-sourced campus dog safety app built with Flutter and Firebase.

SIH 2024 Internal Hackathon Selection: Team **Scanners24** selected for **Automated Social Media Data Parsing Tool**. Certificate

Best Volunteer Award - Youth Red Cross (YRC): Recognized for outstanding contributions to social service.
